

# SYNTHESIS / SYNLETT

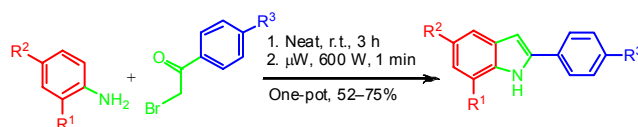

## Sample Graphical Abstracts

The following samples should help you to prepare your own graphical abstract. They show which information should be included and how color can enhance the explanatory power. In the first example you also find the new maximum dimensions for graphical abstracts.

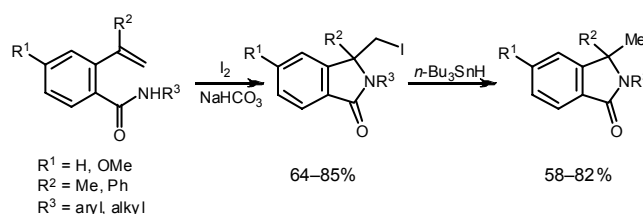

A Multicomponent Domino Reaction and in situ Aerobic Oxidation Sequence for the First One-Pot Synthesis of Polycyclic Benzamidazoles from 1,3-Dicarbonyl Derivatives

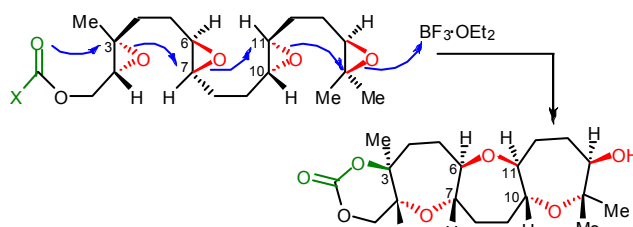

Microwave-Assisted, Solvent-Free Bischler Indole Synthesis

Synthesis of 3,3-Disubstituted Isoindolin-1-ones Iodoamination of  $\alpha$ -Substituted Secondary 2-Vinylbenzamides

Biomimetic Synthesis of *trans,syn,trans*-Fused Polycyclic Ethers

Highly Diastereoselective Synthesis of *N-tert*-Butylsulfinylpropargylamines through Direct Addition of Alkynes to *N-tert*-Butanesulfinimines
